RE: Plant Financial Analyst

Dear Hiring Manager(s),

I would like to express my utmost interest in the position of Plant Financial Analyst. Not only do I feel that my background and experience make me a qualified applicant; but, having recently graduated from the University of Arizona's Data Analytics and Visualization Program, I feel I can bring an extra element to the position.

My Bachelor's degree in Business-Accounting and experience at Nestle Purina provide the finance, accounting, and manufacturing experience you desire. Furthermore, working for Nestle Purina has given me the experience in SAP. The Production Data Coordinator position allowed me to attend SAP training, interact with multiple departments, and work closely with the Plant Controller.

As your next Plant Financial Analyst, the additional skillsets I am excited to bring to the position are coding and visualization. In presenting analysis or conclusions for the company, perhaps I can utilize Tableau or a simple interactive HTML site. Other recent skills I learned I can potentially use include Python and SQL.

I am excited at the opportunity to be employed at Johns Manville. I am eager to discuss my resume, personal skills and professional experience in person to further match my qualifications to the position. I look forward to hearing from you. You may contact me by my cell phone at (520) 312-2170, or by email at alanstaie00@gmail.com.

Thank you for your time and consideration.

Sincerely,

Alan Staie
